helping save lives

Laerdal Medical

*Your Partner for Simulation, Training, and Skills Proficiency Solutions*

## Helping Advance Health Sciences Programs

For more than 50 years, healthcare providers and educators have trusted Laerdal to offer products and services that help improve patient outcomes and survival rates. Our training solutions help provide learners the opportunity for hands-on deliberate practice, development of decision-making skills, and improved communication and teamwork.

With patient simulators, training manikins, task trainers, courseware, educational services, and technical support, Laerdal offers complete solutions for training in areas including:

- Nursing & Patient Care
- Resuscitation
- Emergency Care & Trauma
- Obstetrics & Pediatrics

At Laerdal, we work towards a future where no one should die or be disabled unnecessarily during birth or from sudden illness, trauma, or medical errors. Our mission: helping save lives.

# Simulation, Training, and Skills Proficiency Solutions

Below is a sampling of some of our solutions, resources, and simulation-oriented events.

## Nursing Anne Simulator

Practice core nursing skills | patient consciousness & bilateral assessment | realistic procedures for NG tubes, central line, urinary catheterization and more

## Nursing Kid

Pediatric manikin | skill and scenario-based training | first aid, wound assessment and care, and child abuse training | articulating IV arm | interchangeable genitalia

## vSim® for Nursing

Interactive virtual simulation | safe, realistic online environment | simulate real nursing scenarios | develop clinical reasoning skills | personalized feedback

## Little Family Q CPR

Package of age-specific CPR training manikins | AHA Guidelines Compliant | Q CPR objective feedback technology to boost efficiency and engagement

## Multi-Vein IV Arm

Life-like arm reproductions | replaceable skin and veins | peripheral intravenous therapy | palpable veins | articulates to adult manikins

## Modular Skills Trainer

Remote clinical skills practice | practice patient care skills including NG-Tube insertion, wound care, tracheostomy care, injections, and more

## Education & Technical Services

Best practices for simulation training | geared toward all levels | onsite sessions, live online sessions or eLearning courses | warranties, installations & more

## Resource Library

Collection of educational content | articles, white papers, featured stories, videos, tips, infographics, webinars, e-books, research papers and more

## SUN Conference

Simulation User Network | best practices for simulation training programs | building a simulation program, mouldage, assessment, debriefing and more
