Nursing Anne Simulator

One Simulator - Many Patients

Designed based on input from leading nursing educators from around the world, this engaging and robust modular platform enables nurses to practice a wide range of competencies both as a skills trainer and as a highly realistic patient simulator. Learners can safely and realistically practice core nursing skills from basic assessments and critical thinking to advanced interventions.

- Manikins:**
- 320-05050 Nursing Anne Simulator, Medium
 - 320-04050 Nursing Anne Simulator, Dark
 - 321-05050 Nursing Anne Simulator Male, Medium
 - 321-04050 Nursing Anne Simulator Male, Dark
 - 320-04150 Nursing Anne Simulator African Descent
 - 322-05050 Nursing Anne Simulator Geriatric, Medium
 - 322-04050 Nursing Anne Simulator Geriatric, Dark

Operation and Patient Monitoring Options:
(Required for operation)

- 204-30001 SimPad PLUS LLEAP
- 204-50150 LLEAP for SimPad PLUS
- 400-10201 Laptop Instructor - Patient Monitor
- 400-01050 LLEAP Software License

- Accessories:**
- 320-29050-D African Descent Skin, Front
 - 320-24050-M Wound Assessment Care Kit, Medium
 - 320-24050-D Wound Assessment Care Kit, Dark
 - 320-25550-M Staged Wound Feet Set, Medium
 - 320-27050-M Mastectomy Skin, Medium

From a skills lab to in-situ training, Nursing Anne Simulator's modular platform makes patient interactions more realistic to what would be experienced in real healthcare environments. Adding accessory modules can help expand training for added realism in specialized care and cultural diversity of patients.

- Kits:**
- 320-10550-M Male Upgrade Kit, Medium
 - 320-10550-D Male Upgrade Kit, Dark
 - 322-10550-M Geriatric Upgrade Kit, Medium
 - 322-10550-D Geriatric Upgrade Kit, Dark

Nursing Anne

Nursing Anne is a manikin designed for scenario-based training for the care and management of basic patient handling skills to advanced nursing skills.

- Manikins:**
- 325-05050 Nursing Anne (SimPad Capable), Light
 - 325-05050T Nursing Anne (SimPad Capable), Medium
 - 325-05050B Nursing Anne (SimPad Capable), Dark
 - 325-20050 Nursing Anne (Non-SimPad Capable), Light
 - 325-20050T Nursing Anne (Non-SimPad Capable), Medium
 - 325-20050B Nursing Anne (Non-SimPad Capable), Dark

325-00650 Mastectomy Module

325-00450 Fundus Skills and Assessment Module

325-00550 Wound Care Assessment Set - Female

300-01050 Wound Care and Assessment - Male

375-81001 Arterial Stick Arm

SimPad PLUS System required for operation. **Sold separately.**
204-30001 SimPad PLUS System
204-50150 LLEAP for SimPad PLUS

Nursing Kid

Nursing Kid is a clinical skills training manikin for in-hospital pediatric professionals designed to realistically represent a six-year-old.

- Manikins:**
- 350-05050 Nursing Kid (SimPad PLUS Capable), Light
 - 350-05050T Nursing Kid (SimPad PLUS Capable), Medium
 - 350-05050B Nursing Kid (SimPad PLUS Capable), Dark

277-00001 Pediatric Trauma Modules

231-00101 Pediatric Intraosseous Leg

Nursing Baby

Nursing Baby is a full-size infant manikin that realistically simulates a 6-month old patient. It is specifically designed for training professionals in the practice of basic and advanced infant patient care procedures.

- Manikins:**
- 365-05050 Nursing Baby (SimPad PLUS Capable), Light
 - 365-05050T Nursing Baby (SimPad PLUS Capable), Medium
 - 365-05050B Nursing Baby (SimPad PLUS Capable), Dark

SimCapture

A center management solution for healthcare simulation and education

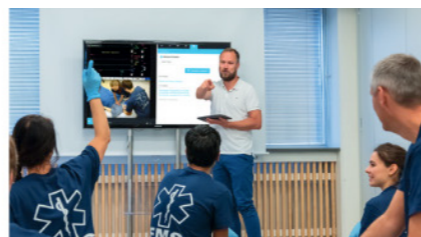

SimCapture allows you to effectively manage, record, assess, and debrief simulation training anywhere, anytime. It captures audio, video, evaluations, annotations, patient monitors, clinical inputs, and simulator data in a single web-based interface. Whether you're looking for straight-forward video recording, simplified center management, robust data-driven insights, or advanced OSCE workflows, we've got you covered. SimCapture is a flexible solution that can meet your needs today and into the future.

Streamline sim center management and boost ROI

Record and debrief any situation

Deliver consistent, high-quality simulation training

Standardize and automate your clinical exams

Engage students with peer-to-peer and individual practice

Get insights on learners' performance

Learn more about SimCapture online!

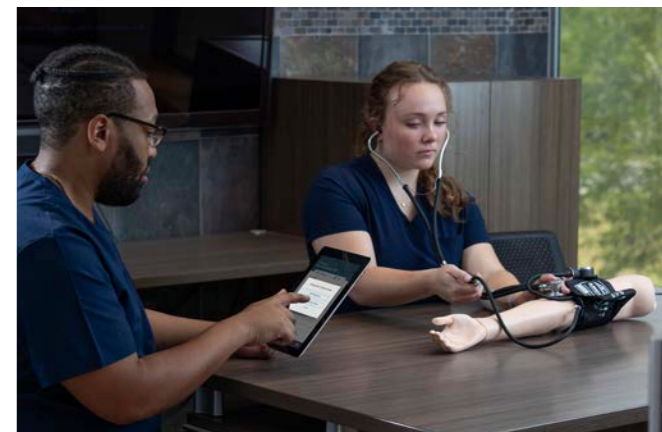

SimCapture for Skills

Empower students on their path to skills mastery

Start utilizing skills trainers, manikins, simulators, or standardized patients with SimCapture for Skills - a digital assessment and evaluation solution that provides unique program insights and supports hands-on career and technical training.

With self-recording and peer-to-peer practice, students become more competent and confident as they train repeatedly on fundamental skills until they get it right.

Lippincott DocuCare

Teach your students to think critically about documentation with Lippincott DocuCare. This innovative digital solution integrates over 150 patient scenarios with web-based academic EHR simulation software, allowing students to learn how to use an EHR in a safe, true-to-life setting, while enabling instructors to measure their progress. Lippincott DocuCare's non-linear solution works well in the classroom or simulation lab.

978-1-4511-8517-1 DocuCare 1 year Learner License

NextGen vSim® for Nursing

Provide students with the most advanced virtual simulation experience with vSim for Nursing. Trusted by nursing experts, vSim for Nursing challenges students to exercise clinical judgment and decision-making for gaining relevant clinical experience through virtual simulation.

- Lifelike virtual patients
- SBAR communication tool
- Tablet compatibility
- Personalized feedback

See our full range of vSim scenarios:

Modular Skills Trainer

The Modular Skills Trainer is a 16-in-1 portable solution for skills practice and competency development. Designed to fit the needs of today's nursing schools, learners can practice individually or in groups to transition from beginner to skills mastery.

Practice a wide array of patient care skills:

- Nasogastric Tube Insertion
- Wound Care
- Tracheostomy Care
- Central Line Dressing Change
- Ostomy Care
- Urinary Catheterization & Enema
- Injections
- Intravenous Catheterization & Phlebotomy
- Suppositories (rectal & vaginal)
- Perineal Care
- Oxygen Therapy
- Nasal Swab
- G-tube Care

Available as part of the SimCapture for Skills with Modular Skills Trainer combined solution or as a standalone trainer:

| 227-10956UBPVMST | SimCapture for Skills with Modular Skills Trainer Annual Subscription |

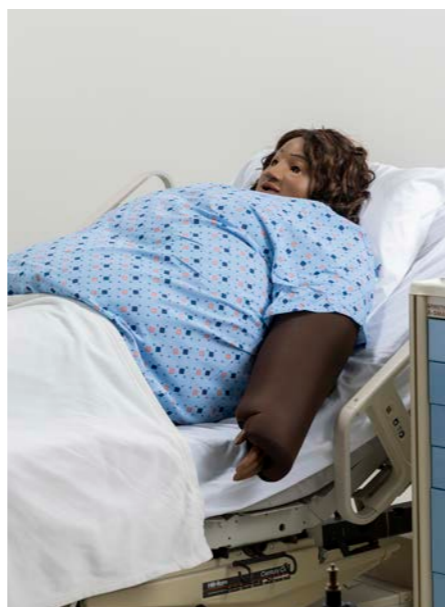

Laerdal Adult Bariatric Suit

Caring for bariatric patients requires additional hands-on support from healthcare providers due to the unique challenges they present. This includes safe patient handling to reduce the risk of injuries to caregivers and patients during essential tasks like repositioning, bathing, ambulation, and dressing changes.

The Laerdal Adult Bariatric Suit is an important tool in healthcare education, providing realistic simulations of bariatric patients' appearance and weight. Designed for use with SimMan, Nursing Anne Simulator, or a standardized patient, this suit enhances training in safe patient handling and effective communication.

- | | |
|--------------|-------------------------------------|
| 11-81-8804-L | Laerdal Adult Bariatric Suit Light |
| 11-81-8804-M | Laerdal Adult Bariatric Suit Medium |
| 11-81-8804-D | Laerdal Adult Bariatric Suit Dark |

Includes: Torso with arms, pair of legs, storage bag.

MamaBirthe and MamaNatalie

Scan the QR code to learn about our Buy One Gift One program, which allows you enhance your training efforts through simulation while also making a social impact.

MamaBirthe is an anatomically accurate model which allows for realistic simulation and demonstration of both normal and complicated labor; focusing on the first two stages of labor. MamaNatalie focuses on complications and management of the third and fourth stages of labor.

- | | |
|-----------|--------------------|
| 370-00033 | MamaBirthe, Dark |
| 370-00133 | MamaBirthe, Light |
| 340-00233 | MamaNatalie, Dark |

Multi-Venous IV Training Arms

Lifelike adult arm reproductions with replaceable skin and veins designed for peripheral intravenous therapy.

- | | |
|------------|-----------------------|
| 270-00001 | Male IV Arm Kit (S) |
| 270-00001B | Male IV Arm Kit (B) |
| 270-00001T | Male IV Arm Kit (T) |
| 375-50001 | Female IV Arm Kit (S) |
| 375-50001B | Female IV Arm Kit (B) |
| 375-50001T | Female IV Arm Kit (T) |

Consumables:

- | | |
|-----------|---------------------------------|
| 250-21050 | Airway Lubricant (45 ml) |
| 300-00750 | Simulated Blood – Red |
| 312029 | Replacement Skin/Veins - Male |
| 325-00350 | Replacement Skin/Veins - Female |

Pediatric Multi-Venous IV Training Arm Kit

Lifelike pediatric arm reproductions with multi-vein system designed for peripheral intravenous therapy.

- | | |
|------------|--------------------------|
| 375-70001 | Pediatric IV Arm Kit (S) |
| 375-70001B | Pediatric IV Arm Kit (B) |
| 375-70001T | Pediatric IV Arm Kit (T) |

Arterial Arm Stick Kit

Lifelike adult male arm reproduction with infusible arteries designed for training the proper arterial puncture procedure for blood gas analysis.

- | | |
|-----------|------------------------|
| 375-80001 | Arterial Arm Stick Kit |
|-----------|------------------------|

Blood Pressure Training Arm Kit

Lifelike, adult arm with an electronic trainer designed for training on the procedure of NIBP measurement.

375-40501 Blood Pressure Training Arm Kit
381402 Deltoid Injection Pad, Adult

SimPad Blood Pressure Training Arm

The SimPad Blood Pressure Training Arm allows for practice of non-invasive blood pressure (NIBP) measurement. Auscultated and palpated blood pressure simulation is possible.

375-42050 SimPad Blood Pressure Training Arm
200-00550 Blood Pressure Cuff Assembly

Interchangeable Catheterization and Enema Trainer

The Interchangeable Catheterization and Enema Trainer is a life-size female pelvis with interchangeable genitalia designed for practicing urologic and rectal access gastrointestinal care procedures.

375-21001 Catheterization and Enema Trainer

325-00250 Dorsogluteal Injection Pad - Female
325-00150 Ventrogluteal Injection Pad - Female

In-Service Home Care Training Simulator

The In-Service Home Care Trainer is a life-size male pelvis with interchangeable genitalia designed for practice of urinary catheterization and enema procedures with the addition of stoma and wound care.

375-20001 In-Service Home Care Training Simulator

Consumables:
300-00150 Thigh Injection Pad
300-00250 Ventral Gluteal Injection Pad - Male
300-00350 Dorsal Gluteal Injection Pad - Male

Laerdal Airway Management Trainer

Realistic practice is the key to developing proficiency in airway management skills. The Laerdal Airway Management Trainer realistically simulates an adult airway, and the lifelike upper torso and head can be used to demonstrate and practice intubation, ventilation, and suction techniques. In addition, it can be used to demonstrate upper airway bronchoscopy and bronchoscopy guided endotracheal intubation.

25000033 Laerdal Airway Management Trainer

Consumables:
252090 Airway Lubricant (180 ml)
252800 Concentrated Simulated Vomit

NG Tube and Trach Care Trainer

Torso task trainer designed for instruction in the care of patients with respiratory conditions and the practice of gastrointestinal care procedures via nasal and oral access.

Features include anatomical landmarks, trachea, esophagus, simulated lungs, and stomach.

375-10001 NG Tube and Trach Care Trainer

Consumables:
250-21050 Airway Lubricant (45 ml)

Pediatric Intubation Trainer

Anatomically accurate reproduction of a pediatric torso designed for teaching the differences in pediatric and adult anatomy for airway management procedures.

- Anatomically accurate airway allows sizing and insertion of various airway adjuncts: Oropharyngeal and nasopharyngeal airway insertion
- Endotracheal tube insertion and securing
- Bag valve mask ventilation
- Tracheal suctioning
- Manually generated carotid pulse
- Closed chest compressions

255-00001 Pediatric Intubation Trainer

Consumables
250-21050 Airway Lubricant (45 ml)

of Skills Trainers online!

Resusci QCPR Family

The Resusci QCPR manikins help elevate CPR training to a new level of precision and proficiency. By training with the same protocols, equipment, and techniques used in real emergencies, professional first responders can work to continuously improve both individual skills and teamwork.

Resusci Anne QCPR

Key Features

- QCPR App enabled
- QCPR technology enabled (compressions, ventilations, hand placement)
- Highly realistic compression system with three chest stiffness options
- Realistic head movements including head-tilt, chin-lift, jaw-thrust
- Torso or Full Body
- Airway Head or Standard Head
- AED Skin or Standard Skin
- Add-on limb accessories include IV arm, trauma limbs, and bleeding control legs
- Rechargeable battery

Resusci Junior QCPR

Key Features

- QCPR App enabled
- QCPR technology enabled (compressions, ventilations, hand placement)
- Highly realistic compression system
- Realistic head movements including head-tilt, chin-lift, jaw-thrust
- Full Body
- Airway Head or Standard Head
- Powered with AA batteries (4)

Resusci Baby QCPR

Key Features

- QCPR App enabled
- QCPR technology enabled (compressions, ventilations, hand placement)
- Highly realistic compression system
- Realistic head movements including head-tilt, chin-lift, jaw-thrust
- Full Body
- Airway Head or Standard Head
- Add-on IO Leg accessory
- Rechargeable battery

171-01260	Resusci Anne QCPR Full Body - Rechargeable
172-00160	Resusci Anne QCPR Torso with Airway Head Rechargeable
172-01260	Resusci Anne QCPR Full Body with Airway Head- Rechargeable
173-00160	Resusci Anne QCPR AED Torso - Rechargeable
173-01260	Resusci Anne QCPR AED Full Body - Rechargeable
174-00160	Resusci Anne QCPR AED Torso with Airway Head - Rechargeable
174-01260	Resusci Anne QCPR AED Full Body with Airway Head – Rechargeable

181-00150	Resusci Junior QCPR Full body w/ carry bag
182-50010	Resusci Junior airway head

161-01260	Resusci Baby QCPR w/ Airway Head
162-01260	Accessories IO Baby Leg 083200

Resusci Anne Advanced SkillTrainer

Resusci Anne Advanced SkillTrainer offers high quality, yet relatively low cost, advanced skills training.

151-22000	RA Adv. SkillTrainer AED Link, IV-arm left, incl. ShockLink®
151-23000	RA Adv. SkillTrainer AED Link, IV-arm right, incl. ShockLink®
151-27000	RA Adv. SkillTrainer Paddle, IV-arm left
151-28000	RA Adv. SkillTrainer Paddle, IV-arm right
204-30101	SimPad® PLUS
204-50150	LLEAP for SimPad® PLUS

Compatible with SimPad PLUS (LLEAP and SkillReporter) and TeamReporter app.

Resusci Anne Simulator

Resusci Anne Simulator has been designed for the unique training needs of emergency care, in both pre-hospital and in-hospital environments - transforming the simulation exercise into a mobile and dynamic learning experience for both the instructor and the student.

150-22000	RA-Simulator AED Link, IV-arm left, BP-arm right, incl. ShockLink
150-23000	RA-Simulator AED Link, IV-arm right, BP-arm left, incl. ShockLink
150-27000	RA-Simulator PaddleSkin, IV-arm left, BP-arm right
150-28000	RA-Simulator Paddle Skin, IV-arm right, BP-arm left
150-10150	IV Arm left female
150-10160	IV Arm right female
150-10250	BP Arm right female
150-10260	BP Arm left female
204-30101	SimPad® PLUS
204-50150	LLEAP for SimPad® PLUS

QCPR Feedback Options

QCPR App

Real-time objective feedback on CPR performance

- Connects to 1-6 manikin(s)
- Shows live and summative feedback of CPR performance
- Provides suggestions for improvement, post-session
- Results are saved in the app
- QCPR Race game to boost engagement
- Free download on App Store and Google Play

SimPad PLUS with SkillReporter

QCPR Feedback on a rugged, Laerdal-dedicated SimPad PLUS tablet. **ShockLink Compatible**

Compatible manikins:

- Resusci Baby QCPR
- Resusci Junior QCPR
- Resusci Anne QCPR
- Resusci Anne Advanced SkillTrainer
- Resusci Anne Simulator

A SimPad PLUS tablet can have one software or both SkillReporter software and LLEAP software

206-50050 SimPad®

TeamReporter app

A smartphone app designed for high-performance CPR training with intelligent video debriefing. **ShockLink Compatible**

Compatible manikins:

- Resusci Baby QCPR
- Resusci Junior QCPR
- Resusci Anne QCPR
- Resusci Anne Advanced SkillTrainer
- Resusci Anne Simulator

SimPad PLUS with LLEAP Software

Control Laerdal manikins/simulators and deliver simulation-based training. **ShockLink Compatible**

Compatible manikins:

- Resusci Anne Advanced SkillTrainer
- Resusci Anne Simulator

AED Trainer

Designed to represent the typical AED user experience, the AED Trainer helps build basic competency in using an AED device as part of more efficient BLS, First Aid, and Community CPR programs. Simple enough for bystanders and powerful enough for professionals, the hand-held device can be used for standalone AED training or as part of CPR scenarios integrated with the QCPR app.

Users can quickly and easily use one device on its own or up to a full classroom all controlled by the same app

- 197-02050 AED Trainer 3-pack
- 197-01050 AED Trainer 1-pack
- 197-03050 AED Trainer unit only

ShockLink

ShockLink enables users to safely integrate live defibrillators into the training environment, creating more realistic and impactful training sessions. ShockLink is compatible with a range of Philips, Zoll, Physio-Control, Corpuls, Mindray, and Schiller defibrillator models.

- 185-10050 ShockLink System

- Consumables:**
- 198-80150 ShockLink Training Pads
 - 198-80450 Pediatric Training Pads Multi
 - 198-80850 Zoll ShockLink Training Pads (Rectangular)
 - 185-80950 Zoll ShockLink Training Pads (Triangular)

Modernized Resuscitation Training Solutions

Resuscitation Quality Improvement® (RQI®): RQI is a learner-centric, scenario-based skills program that delivers low-dose, high-frequency learning sessions to support the mastery of high-quality CPR skills. This adaptive learning approach ensures proficiency in high-quality CPR while enhancing skills confidence and retention. RQI's data-driven, evidence-based program has been proven to improve resuscitation quality during cardiac arrest events. Reports and dashboards equip faculty with institutional, program and learner-level data, providing actionable insights for learner remediation. Learners earn a dynamic eCard certification for their quarterly sessions.

HeartCode Complete offers the same adaptive learning approach with skills performed on the RQI simulation station for a 2-year certification.

HeartCode is an online, adaptive learning solution for cognitive skills. Learners then attend a hands-on, instructor-led skills session for a 2-year certification.

Learn more:

*RQI and HeartCode were developed in association with the American Heart Association (AHA)

Little Anne

The latest generation Little Anne takes your CPR classroom setup and training experiences to the next level with a simple yet sophisticated design that makes everything easier and more efficient. The new Little Anne is QCPR enabled and built with the expected durability of a Little Anne, all while six manikins can stack inside the travel case. Plus, the new design is made with recycled plastics to reduce CO2 impact.

- 135-01050 Little Anne Combo 6-pack
- 135-01250 Little Anne Dark 6-pack
- 135-01350 Little Anne Light 6-pack
- 137-01250 Little Anne Dark 1-pack
- 137-01350 Little Anne Light 1-pack

SimMan® ALS

SimMan ALS provides a mobile, durable solution that will meet the training needs of pre-hospital and in-hospital emergency care providers - from basic assessment to advanced life-support skills. From pre-hospital, on-scene assessment and management to definitive care in a hospital, SimMan ALS can fulfill the unique training requirements of emergency healthcare providers. **ShockLink Compatible.**

SimMan ALS LiveShock

SimMan ALS LiveShock is a combination of a unique SimMan ALS chest skin and an integrated ShockLink unit that enables the use of a live defibrillator with real pads or paddles. No need for separate training pads or paddles.

235-02350 SimMan ALS, Light
235-02150 SimMan ALS, Medium
235-02250 SimMan ALS, Dark

235-03350 SimMan ALS Live Shock, Light
235-03150 SimMan ALS Live Shock, Medium
235-03250 SimMan ALS Live Shock, Dark

Operation and Patient Monitoring Options: (Required for operation)

204-30001 SimPad PLUS LLEAP
204-50150 LLEAP for SimPad PLUS
400-10201 Laptop Instructor - Patient Monitor
400-01050 LLEAP Software License

MegaCode Kelly

The advanced life support manikin for realistic training focusing on a wide variety of advanced lifesaving skills for pre-hospital emergencies from advanced airway scenarios to IV therapy.

200-05050 MegaCode Kelly Advanced (SimPad Capable), Light
200-05050T MegaCode Kelly Advanced (SimPad Capable), Medium
200-05050B MegaCode Kelly Advanced (SimPad Capable), Dark

203-05050 MegaCode Kelly Basic (ECG Capability), Light
203-05050T MegaCode Kelly Basic (ECG Capability), Medium
203-05050B MegaCode Kelly Basic (ECG Capability), Dark

SimPad PLUS System required for operation. **Sold separately.**
204-30001 SimPad PLUS System
204-50150 LLEAP for SimPad PLUS

Laerdal Services

Helping you make the most of your training

Educational Services

Our Educational Services Solutions include instructor-led classroom training in your own environment, instructor-led classroom training in our facility, virtual classroom training, eLearning and a full suite of on-demand support materials. We have a professional team dedicated to helping you identify the right blend of ongoing competency development for your team, and we'll support you through every step of the way.

Onsite Courses

Onsite training led by a Laerdal expert educator at your organization, where you will address specific objectives in your environment on your equipment.

Offsite Courses

Offsite training by a Laerdal expert educator in a Laerdal facility where you join a group of like-minded peers with similar objectives.

Virtual Courses

Virtual trainings led by a Laerdal expert educator through a collaborative virtual classroom, offering refresher, onboarding or orientation training.

eLearning Courses

eLearning training that participants can access from anywhere, anytime.

Career and Technology Education Course

We offer a range of educational solutions for Career and Technology Education (CTE) as part of our Educational Services, available in various formats to suit your needs. Our CTE course content challenges students and enhance their workforce skills, empowering them to provide quality care to patients and their families.

Together, we can create successful and high-quality simulation experiences that prepare your students for their journey to becoming skilled healthcare professionals.

Technical Services

Our Technical Services Solutions include everything from product installation and preventive maintenance, to extended warranty coverage, troubleshooting and repairs. The team can even support the build-out and operation of your clinical lab. With professionally trained technical engineers around the globe, we are here to help.

Simulator Installation

Designed to provide you with professional set up of your simulator and basic in-service operator training at your facility.

Periodic Maintenance

A simple way to control costs through annually scheduled routine servicing.

Extended Warranty Options

Continues the Laerdal standard manufacturer warranty coverage for your manikin, patient simulator or system.

Specialty Technical Services

Brings professional expertise to deliver solutions that meet unique technical maintenance or service needs.

Network Services

Connect all your simulation equipment securely to one dedicated simulation network. Future-proof your network setup and simulate without connectivity limitations.

ProTech

An all-in-one technical service solution that ensures your simulators receive the services and support they need to work to their full potential.

Helping Advance Health Science Programs

For more than 60 years, healthcare providers and educators have trusted Laerdal to offer products and services that help improve patient outcomes and survival rates. Our training solutions help provide learners the opportunity for hands-on deliberate practice, development of decision-making skills, and improved communication and teamwork.

With patient simulators, training manikins, task trainers, courseware, educational services, and technical support, Laerdal offers complete solutions for training in areas including:

- Nursing & Patient Care
- Resuscitation
- Emergency Care & Trauma
- Obstetrics & Pediatrics

Explore our collection of Career and Technical Education resources, including articles, success stories, a Starter Guide, and more.

At Laerdal, we work towards a future where no one should die or be disabled unnecessarily during birth or from sudden illness, trauma, or medical errors. Our mission: Our mission is Helping Save Lives. Our goal is to help save one million more lives, every year, by 2030.
