

Laerdal

helping save lives

Helping Advance Health Science Programs

For more than 60 years, healthcare providers and educators have trusted Laerdal to offer products and services that help improve patient outcomes and survival rates. Our training solutions help provide learners the opportunity for hands-on deliberate practice, development of decision-making skills, and improved communication and teamwork.

With patient simulators, training manikins, task trainers, courseware, educational services, and technical support, Laerdal offers complete solutions for training in areas including:

- [Nursing & Patient Care](#)
- [Resuscitation](#)
- [Emergency Care & Trauma](#)
- [Obstetrics & Pediatrics](#)

At Laerdal, we work towards a future where no one should die or be disabled unnecessarily during birth or from sudden illness, trauma, or medical errors. Our mission: helping save lives.

Health Science Solutions

Simulation training can assist in developing a new generation of competent, confident healthcare providers. Below are just a few examples of the solutions that will help your students bridge the gap between cognitive and skills-based learning with realistic training.

Nursing Anne Simulator

Practice core nursing skills | patient consciousness & bilateral assessment | realistic procedures for NG tubes, central line, urinary catheterization and more

Nursing Kid

Pediatric manikin | skill and scenario-based training | first aid, wound assessment and care, and child abuse training | articulating IV arm | interchangeable genitalia

NextGen vSim® for Nursing

Interactive virtual simulation | safe, realistic online environment | simulate real nursing scenarios | develop clinical reasoning skills | personalized feedback

Little Anne

CPR classroom training | Stackable design and easy setup | Quality feedback on compressions and ventilations | Durable recycled materials | QCPR App compatible

Multi-Vein IV Arm

Life-like arm reproductions | replaceable skin and veins | peripheral intravenous therapy | palpable veins | articulates to adult manikins

Airway Management Trainer

Highly durable, lifelike adult airway management trainer | practice intubation, ventilation, suction, and clearing

Career and Technical Education Resources Library
