LearNEXT All-Access

Maximize Simulation Impact with Ongoing Professional Development

Continuous professional development is a key element of achieving simulation success. LearNEXT All-Access is a comprehensive learning program for your entire team designed to support continuous growth and help you maximize the value of your simulation investment.

Through year-round access to expert-led training, structured learning paths, and premium content tailored to your simulation goals, LearNEXT All-Access is high-impact solution that drives professional development, reduces training costs, and supports long-term growth.

What Is LearNEXT All-Access?

LearNEXT All-Access is a structured, scalable whole-team education membership designed to meet the evolving needs of simulation professionals. It combines live and on-demand learning, personalized guidance, and exclusive benefits into one unified program, making it easier to build skills, earn certificates, and align training with organizational goals.

- **Cost-Efficient. Content-Rich.**
- **Live + On-Demand Learning.**
- **Personalized and Scalable.**
- **Certificate-Ready Pathways.**

With multiple components working together to support continuous development, LearNEXT All-Access is your all-in-one solution for impactful, cost-efficient simulation education.

Included in LearNEXT All-Access

Learning Pathways with Certificates

Structured, role-based tracks that foster collaboration and award digital certificates.

Instructor-Led Live Online Training

Uncapped live, interactive and led by instructors, designed for high engagement and role-specific learning.

KnowledgeHub Premium

Unlimited, on-demand access to expert content for flexible, hands-on learning.

Annual Skills Review & Refresh

Yearly session for up to 8 learners to assess skills and reinforce key concepts.

Personalized Education Guidance

Annual strategic guidance for 2 staff leaders to align education with organizational goals.

Exclusive Support, Perks & Offers

Ongoing access to expert support, special rewards, and rotating benefits.

Learning Pathways with Certification

Role-Based. Cohort-Driven. Certification-Ready. These structured learning tracks offer curated, role-specific education journeys that support simulation professionals at every stage.

Designed to reduce complexity and increase impact, Learning Pathways combine foundational and advanced courses into a cohesive, guided experience that leads to certification and measurable progress.

Plus, learners earn certificates at completion, helping track progress and demonstrate professional development aligned to goals.

Simulation Technician Pathway

Focuses on building technical confidence and operational fluency with simulation equipment, software, best practices and troubleshooting. Includes foundational courses and advanced modules on simulator setup, maintenance, and scenario execution.

Simulation Coordinator Pathway

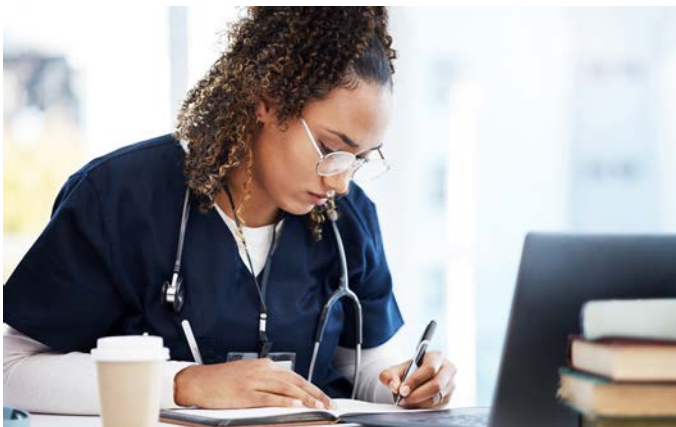

Emphasizes planning, logistics, and scenario execution, helping manage operations and support faculty and learners effectively. Covers scheduling, resource coordination, and integration of simulation into the broader curricula.

Program Faculty Pathway

Strengthens faculty instructional design and facilitation skills, enabling integration of simulation in curricula and lead meaningful debriefs and learning. Includes pedagogy, learner assessments, technical fluency, and scenario facilitation techniques.

Simulation Director Pathway

Supports strategic leadership in quality improvement, program growth, and alignment with institutional goals to deliver measured results. Focuses on budgeting, staff development, strategic planning, and long-term growth and sustainability.

Unlock your potential, continue your learning journey, and begin earning your certificate today!

- Tailored by role, with dedicated tracks
- Built on proven curricula and advanced modules
- Delivered in structured role-based cohorts
- Fosters collaboration and peer engagement
- Designed to support professional development
- Certificates awarded upon successful completion

Instructor-Led Live Online Training

Expert Educator-led. Interactive. Delivered wherever you are.

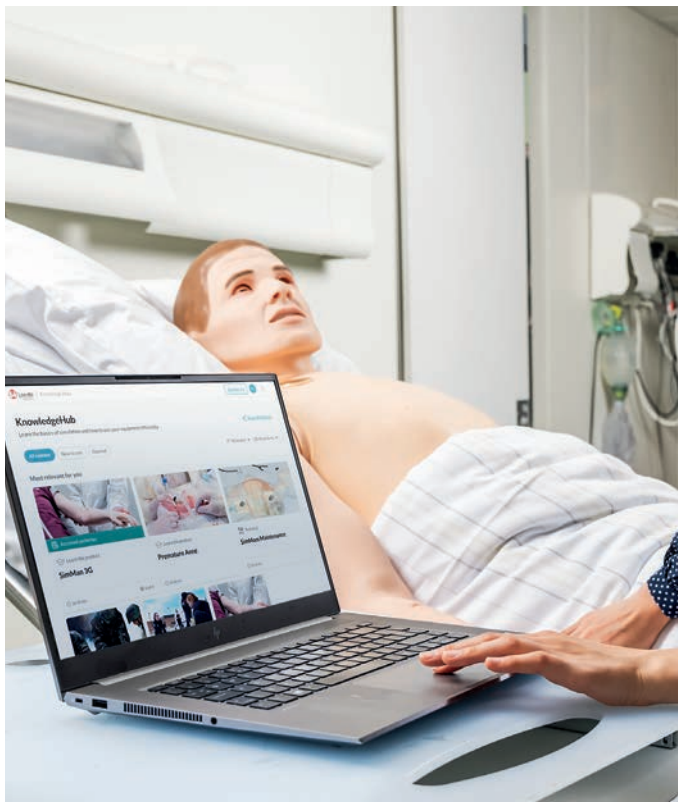

Laerdal's Live Online Training (LOT) offers learners a dynamic, instructor-led experience that conveniently advances simulation education without the need for travel or on-site coordination.

Delivered as either individual events or role-structured cohorts, Each LOT combines interactivity and real-time engagement across a wide range of topics to empower learners wherever they are.

Interactive and immersive, with real-time guidance from expert educators

Designed for peer engagement, connecting professionals from across North America

KnowledgeHub Premium

Unlimited Learning. On Demand: Get full access to all KnowledgeHub content, advanced courses, expert guides, and practical tools. Empower your team to build skills at their own pace, meeting their individual simulation goals.

Learn Anytime, Anywhere: Boost team confidence and competence with flexible, self-directed learning. Users can set goals, refresh skills, and grow continuously; no scheduling or travel required

Expert-Curated Content Access: high-quality eCourses, how-to guides, and articles. Reduce training time and educational costs by making core learning as well as maintenance materials instantly available.

Enhance Hands-On Training: Used alongside Laerdal-led services, KnowledgeHub prepares team members to get more from in-person sessions, leading to:

- More effective practice
- Personalized learning
- Faster skill development

Annual Skills Review & Refresh

Dynamic group session: Designed to evaluate current competencies, uncover knowledge gaps, and reinforce essential concepts through collaborative activities and guided reflection.

Participants engage in interactive assessments, scenario-based discussions, and peer feedback to benchmark their skills and identify areas for growth. The session promotes shared learning, boosts confidence, and ensures alignment with evolving standards, ultimately equipping teams with the clarity and capability to perform at their best.

Personalized Education Guidance

Customized consultations are available to assist you in identifying your specific learning objectives and creating a personalized course plan that meets your team's developmental requirements.

By engaging with our education experts, you will gain professional advice on choosing the right educational options. We help ensure that your team's learning journey aligns with your organizational goals and for optimized for growth, confidence, and tangible results.

Exclusive Extras

Educator Concierge Support: Seamless, expert support when you need it, with a team of Laerdal professionals by your side every step of the way on your learning journey.

Exclusive Perks & Offers: Receive exclusive perks and ongoing offers. Special rewards and access, and insider benefits curated just for our most engaged learners.

Choose Your Plan. Empower Your Team. Learn Without Limits.

Whether you're a simulation director, a faculty member looking to deepen your expertise, or an organization committed to continuous development, LearNEXT All-Access can support you on your learning journey. **Choose the plan option that fits your goals, with 1, 3, or 5 years of unlimited premium learning access. It's flexible, designed to grow with you!**

STEPS FORWARD

One Year

A confident starting point for teams to begin their learning journey with full access.

VALUE ADVANTAGE

Three Years

A strategic option offering full access at a lower annual cost; ideal for consistent growth and long-term planning.

EXTENDED IMPACT

Five Years

An investment in lasting impact, offering the best value for long-term excellence.
