

LearNEXT All-Access

Curated professional development from your simulation partners.

One-and-done training isn't enough anymore.

Your simulation program deserves more than one-time training. LearNEXT All-Access is a comprehensive, year-round education membership that gives your entire team continuous access to live and on-demand simulation training, development resources, and expert guidance, so the right education is always available for every member of your team, whenever it's needed.

LearNEXT All-Access	Traditional Training
 Continuous learning	 One-time sessions
 Team-wide access	 Limited reach
 Skills reinforced	 Skills fade

Greater cost efficiency and long-term value. Reduce cost variability. Stay prepared.

Change is constant, and with LearNEXT, you benefit from a one-time price for predictable training costs, plus the flexibility to support both planned and unplanned needs—maximizing value for every learner at every level.

Create intentional professional development strategy.

Move from ad hoc training to a structured, role-based approach that aligns learning with program goals, staff responsibilities, and long-term development needs.

Support staff onboarding and ongoing advanced learning.

Help new staff ramp up with confidence while providing experienced team members with opportunities to strengthen skills and continue developing over time.

Expand quality learning access with ease and convenience.

Bring flexible education to more people through a scalable approach that makes it easy for individuals and teams to access training when and where it's needed.

Standardize quality training and development across teams.

Deliver consistent learning experiences across various roles, experience levels, and locations to help build alignment, confidence, and shared best practices.

Explore what the membership offers

LearNEXT All-Access is education your team needs today...and tomorrow.

Start strong with confidence

LearNOW Onsite Sessions | *Included in Year 1*

Start strong with one of our most valued education experiences, this customized onsite training is tailored to your needs, for those getting started to advanced simulation. As part of LearNEXT, it delivers hands-on training and continued opportunities to learn and advance.

Educational Guidance Sessions | *Annually*

Kick-off each year with a personalized planning session with a Laerdal educator. Together, you'll assess goals, identify priorities, and build a learning plan designed for your team's needs.

Learn throughout the year | *Every year*

Live Online Training

Choose from regularly scheduled, interactive, expert-led virtual sessions on best practices, professional development, and product training—attend topics most relevant to you, as often as you'd like.

Self-paced eLearning

Access a growing library of beginner- to advanced-level on-demand courses, videos, tools, and educational resources—providing the flexibility to learn whenever and wherever it works best for your team.

Learning Pathways

Advance your expertise through role-based pathways with regularly scheduled cohort-based virtual learning and certificate opportunities—building skills and demonstrating competency.

Continual professional development

Skills Review & Refresh | *In years 2+*

Through a live virtual session, your team reconnects with a dedicated educator to review progress, strengthen skills, address gaps, and align on next steps for meeting your simulation and training goals.

Additional Onsite Options

Want more onsite support? Members can access additional LearNOW Sessions at preferred pricing.

Flexible memberships

STEPS FORWARD

1 Year

A confident starting point for teams to begin their learning journey with full access.

VALUE ADVANTAGE

3 Year

A strategic option offering full access at a lower annual cost; ideal for consistent growth and long-term planning.

EXTENDED IMPACT
